SIMMONS HARDWARE AND MILL SUPPLY COMPANY.

A Shingle Mill.

Sheriff G. R. Enloe of Tyler county has been in the city for the past two days looking for a location for a shingle mill in Beaumont. Mr. Enloe has been operating a mill in Tyler county and has decided to move to Beaumont.

A gentleman who is familiar with Mr. Enloe's plans says that the location of the mill here will be hastened by the fact that since his arrival in this city his mill in Tyler county has been damaged by fire about \$1000 on which there was no insurance. The damage was principally to the saw mill and it is thought that the shingle machinery is not injured.

Mr. A. B. Seale, who was figuring on a shingle mill before he secured his big logging contract at Pickering, La., says that there is plenty of cypress on both sides of the river and that there are enough sunken cypress logs here to keep a mill running for two years. These logs are the property of Chas. Mixon and Mr. Enloe has been figuring with Mr. Mixon to raise them. The location of a shingle mill in Beaumont will be important for more reasons than one. It is important because of the lumber mills already established. It also ought to quiet the fears of those who are afraid that the saw mill business will soon play out in this city. It shows that with Beaumont's splendid railroad and water facilities and excellent fire protection that this is as good a location for a mill as can be found anywhere and that when the mills quit business in Beaumont something will have taken their place so that their passing away will not be noticed.

The Palace is now receiving goods daily.
